The raiyats are unable to pay the existing assessment, and gardens are being sold every year for arrears of kandayam thereon. At the last Survey Settlement, the people of Sorab and Sagar Taluks complained to the Government of India against the heavy assessment imposed by the Survey Department and the Chief Commissioner was pleased to order after enquiring into the matter that the settlement should be done with care at this settlement. It is therefore requested that care should be taken to prevent the enhancement and to reduce the existing assessment at this settlement.
